Member Nebraska Funeral Directors Association

Randolph, Nebraska

RANDOLPH

Is located just 35 miles from Gavins Point Dam and Lewis and Clark Lake. The Missouri River is impounded at Gavins Point Dam, forming the huge Lewis and Clark Lake which offers fishing, water skiing, boating and swimming.

Lewis and Clark Lake runs about 40 miles up from the Dam — it's a beautiful body of blue water two to four miles in width — nearly constant level throughout the year as it is fed by the waters of the mighty Missouri — it is bordered by over 100 miles of scenic shoreline.
